

Tube Rotator **New**

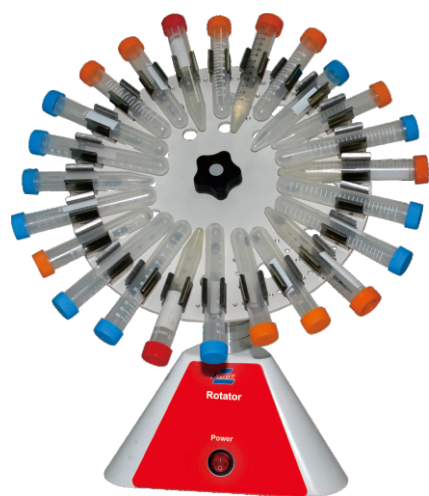

(Available in July 2014)

Digital Tube Rotator

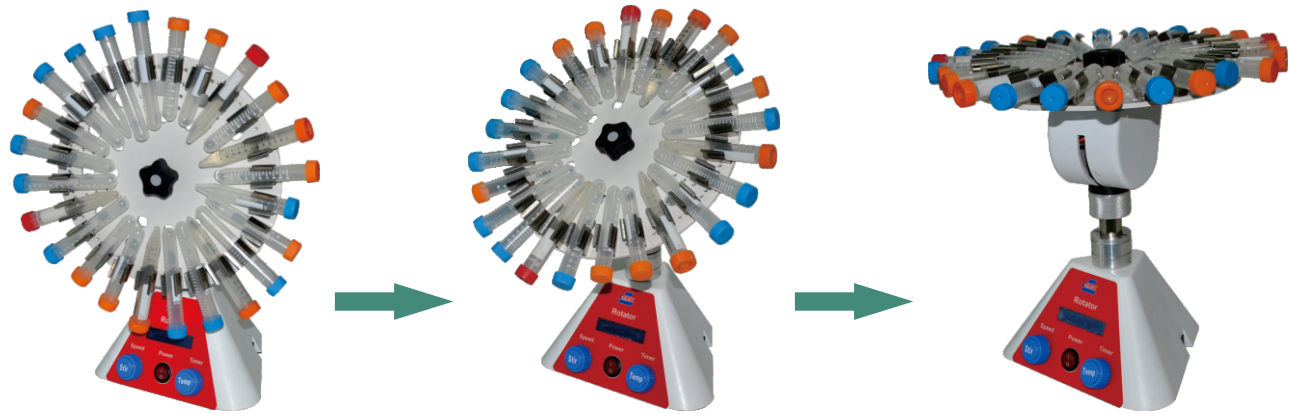

TR-04U

Standard Tube Rotator

TR-03

(0~90 Angle Adjustable)

◆ Description:

The tube rotator is an ideal instrument for numerous applications where high efficiency and consistent mixing are needed. A common place for this instrument is clinical, research and teaching laboratories. This instrument is available in an economical fixed speed model and a variable speed model with timer.

◆ Features:

- ☐ Circular rotating action, gives gentle but effective mixing;
- ☐ Designed with a small footprint;
- ☐ Various types of tube holders are available to meet the needs of every customer;
- ☐ Cold room and incubator compatible.

◆ Specifications

Model	TR-03	TR-04U
Product Name	Standard Tube Rotator	Digital Tube Rotator
Speed Range	20rpm	2~80rpm
Standard Working Plate	TRA11	
Max. Load	15X50ml	
Tilt Angle	0~90°	
Display		LCD
Timer Range		0~999min
Rotating Disk Diameter	Ø250mm/Ø350mm	
Max. Working Load	12*50ml(Ø250mm) 15*50ml (Ø350mm)	12*50ml(Ø250mm) 15*50ml (Ø350mm)
Material	Aluminum6061T6/Flexible plastic/ Stainless steel	
Tube Holder	1.5ml-50ml	
Ambient Temperature	5°C~40°C	
Relative Humidity	≤80%	
Protection Level	IP21	
Power Supply	AC110V/60Hz(US) AC220V/50Hz(Eur)	AC 110~240V/50~60Hz
